Summary RELECOV 2.0

- Steering Scientific Committee
- · Regional laboratory nodes
- · Communication & visibility
- Twining Program

- Sequencing Protocols for Influenza & RSV
- Harmonisation protocols for bioinformatic analysis
- · Sequence metadata annotation

- Automation exchange with platform database
- Tools for visualising genomic data
- Genomic Surveillance of SARS-CoV-2 in ARIs & SARIs

6 months 8 months

12 months

24 months

30 months

33 months

- Technical and operational capacity of RELECOV laboratories (QCAs)
- · Intercomparison for bioinformaticians
- Plataform RELECOV-ISCIII
- Data submission to RELECOV Platform

- First release of the RELECOV Platform
- Hackathons SARS-CoV-2, Influenza & RSV
- Implementation of Genomic
 Sequencing for influenza & RSV
- Update of Genomic Surveillance of SARS-CoV-2, Influenza & RSV
- Data reporting ECDC-TESSy
- Number of Sequences deposited in GISAID, ENA and RELECOV platform
